## Description and structure

The workshop will allow an in-depth discussion on the use of current AMIF funds to support resettlement and relocation schemes. The discussion will be informed by the presentation of the findings of the Follow The Money III report. The objectives of the report are to map and assess how mechanism of the lump sum per person regulated by the AMIF Regulation have been used to favour resettlement (RST) and relocation (REL) to and within the EU for those seeking protection. The presentation will also look at their wider impact on the resettlement and relocation landscape, with a specific focus on the following countries: Slovenia, Portugal, Sweden, France, and Italy. A representative of the French authorities will comment on the findings of the study and share relevant experience about recent developments in France.

The workshop will then discuss how the future EU funds will help to further strengthen resettlement and complementary pathways and to build sustainable intra-EU solidarity mechanisms. A representative of the European Commission will provide their views on the possible improvements under the new MFF concerning legal pathways and responsibility-sharing mechanisms.
